Exercises basics Exercise level 1 Exercise level 2 Feel free to download, re-use, or share the following English grammar lessons with your friends, colleagues, or students. To view the following lessons you need to have Adobe Acrobat Reader installed on your computer. If you already have Adobe Acrobat Reader, simply click on the red icon next to the topic for the grammar lesson you wish to view and it will open automatically. If you do not already have Acrobat Reader installed, click here for instructions on how to download a free copy. Page 2 First, write out your text as usual in any word processing program that you prefer. Review it yourself first to catch any stray words or thoughts and bring them into order. When you're done, enter your text into the form above (bookmark this page now for later use!) Press the Free Check button. If you see an underlined spelling error, style suggestion, or grammar suggestion in your text, click on them to see more options. Apply corrections where you need them. Then, the system will automatically check grammar usage and spelling and give you the final verdict. Lastly, make the suggested changes to your text before you send it on its way. Make a final read-through to make sure that you've caught everything, and that you agree with the changes. Meanwhile, the Deep Check button checks your text the same way the "Free Check" button does. The difference is the Deep Check button is capable of detecting even more difficult-to-spot mistakes, such as run-on sentences or dangling modifiers, and up to ten times more mistakes than popular word processors.* *GrammarCheck users are eligible for a 20% discount on new subscriptions and renewals if they sign up here.
